Re: Award Matching Grant to Community Redevelopment Agency for
The City of Union City

Dear Mr. Chandler:

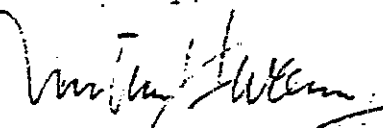

I am writing to request the California Integrated Waste Management Board to award a matching grant to the Community Redevelopment Agency of Union City to assist in the cleanup of the Pacific States Steel Corporation (PSSC) site.

As the former Mayor of Hayward and the Assemblymember representing the 18th District, I am familiar with the PSSC site and I am very interested in seeing the site cleaned up as soon as possible.

Union City created the Redevelopment Agency to clean up the PSSC site because of PSSC's insolvency and the public benefit to remediation of the serious environmental conditions on the site. Cal EPA Department of Toxic Substances Control recently approved the Redevelopment Agency's Remedial Action Plan for site cleanup and the Redevelopment Agency is able to match a cleanup grant awarded by the Eastin Fund. A grant from the California Integrated Waste Management Board is needed to implement the Action Plan. Residents throughout Southern Alameda County will benefit from site cleanup.

Thank you for your help on this matter.

Sincerely,

Michael Sweeney

RE: Community Redevelopment Agency for City of Union City
Application for Matching Grant.

Dear Mr. Chandler,

It is my understanding that the Community Redevelopment Agency of the City of Union City (RDA) is submitting an application to the California Integrated Waste Management Board for a matching grant to assist in the cleanup of Pacific States Steel Corporation (PSSC) site.

As Senator for this area, I am interested in seeing the Pacific States Steel site cleaned up as soon as possible. I am pleased to see that the RDA is willing and able to match the dollars granted by the Eastin Fund. It is my understanding that the major purpose for establishing the RDA was to allow for the cleanup of the PSSC site which requires RDA funding because of PSSC's insolvency and the public benefit to remediation of the serious environmental conditions on the site. Currently, the RDA needs all the financial assistance to move forward since the site has recently received Cal EPA Department of Toxic Substances Control approval of its Remedial Action Plan. The clean up of the PSSC site will be of great benefit to Union City, Southern Alameda County and the community at large and will visibly demonstrate the effectiveness of the Integrated Waste Management Board.

I would appreciate the California Integrated Waste Management Board giving its full consideration to this application from the RDA. Approval of this application will greatly assist the RDA in assuring adequate funding for completion of the cleanup.

If there is anything I can do to help the RDA receive a matching grant in 1995, please let me know.

Sincerely,

Re: Community* Redevelopment Agency for the City of Union City
Application for Matching Grant

Dear Mr. Chandler:

It is my understanding that the Community Redevelopment Agency of the City of Union City (RDA) is submitting an application to the California Integrated Waste Management Board for a matching grant to assist in the cleanup of Pacific States Steel Corporation (PSSC).

I am very familiar with the PSSC site and am very interested in seeing it cleaned up as soon as possible. I am also very familiar with the RDA. A major purpose for the RDA was to allow for the cleanup of the PSSC site which requires RDA funding because of PSSC's insolvency and the public benefit to remediation of the serious environmental conditions on the site. Currently, the RDA needs all the financial assistance that it can gather in order to assure the success of the PSSC cleanup. It is important to move forward at this time since the site has recently received Cal EPA Department of Toxic Substances Control approval of its Remedial Action Plan. The cleanup of the PSSC site will be of great benefit to Union City, Southern Alameda County and the community at large, and will visibly demonstrate the effectiveness of the Integrated Waste Management Board.

I would appreciate the California Integrated Waste Management Board giving its full consideration to this application from the RDA. As I indicated earlier, the importance of this project to Union City, Southern Alameda County and the community at large cannot be overstated, and approval of this application will greatly assist the RDA in assuring adequate funding for completion of the cleanup.

If there is anything I can do to help the RDA receive a matching grant in 1995, please call me at your earliest possible convenience.

Sincerely,

Delaine Eastin
